

Fish Fry Tech Session

By: Mike Bouse

No, we didn't examine the delicate intricacies of various methods in blue gill preparation. For that, we allowed Ian and Debbie Davidson to use their special recipe. And **WOW!** What a treat! Ian kept the hot fillets coming as fast as we could gulp them down. Nothing like a fresh blue gill wrapped in special sauce and deep fried... not that I could remember everything, but I do remember the fresh strawberry pie as dessert. Debbie throws quite the feast.

Afterwards, the guys retired to the barn where Jon Prisbe displayed and demonstrated the techniques of overhead valve shim adjustment. Seems this is a very overlooked general maintenance items for our cars. When was your engine last checked?

The weather was wonderful, and so was the company. Too bad you couldn't have joined us. Don't forget, next month is the 4th Annual Metro Cruise/Car Show on 28th Street in Grand Rapids!! I'm buying pizza at Pietro's.
